

## Course Outline

### Online Training Course ISO 18001 Certified Auditor

## Course Target Group

This course is targeted at supervisor and middle to executive management.

## Course Objective

This course introduces the OHSAS 18001:2007 advantages and guidelines, as well as overview information for any organization desiring to develop an OHSAS management system. It describes requirements to implement the OHSAS 18001:2007 standard, OHSAS documentation, hazard-risk assessment and developing OH&S objectives, as well as OH&S management programs to implement the system. The course also describes how to audit the system, and provides a tool kit of more than 200 questions to use as a checklist when auditing the system, reporting audit findings, implementing the system and taking steps for OHSAS 18001 certification.

At the conclusion of this course, you will be able to:

- Discuss the requirements of OHSAS 18001:2007.
- Evaluate the relevance of the OHSMS in the context of your business and corporate policies.
- Define the methods by which OHSMS can be implemented as organizational best practices.
