ISO 9001:2008 QMS IMPLEMENTATION BEST PRACTICE

DURATION: 2 DAY (DATASHEET # 7.1-10)

Who should attend this training?

This course is targeted at Department Managers and SHEQ/QA Managers responsible for designing and implementing a QMS in an organisation.

What is the course all about?

Delegates will acquire the knowledge and skills to:

- Understand and apply ISO9001:2008 to their organisation.
- Design, develop and maintain a QMS which meets the requirements of ISO9001:2008.

Apply quality management best practices to add value to the organisation's quality system and directly contribute to commercial benefit.

What you will learn...

- Quality control, quality assurance and quality management – differential analysis.
- Principles of quality management.
- Quality management in the context of lean manufacturing.
- Design of a quality management system.
- implementing a quality programme – Principles and project management.
- ISO 9001:2008 Element by element – why & how?
- Applying International quality management best practices in your business.

- Document structure, format & management.
- Key business process identification & mapping.
- Business process procedure auditing – an overview.

Prior Experience & Learning

Tertiary education plus.

Assessment & Certification

Delegates will be assessed by means of a written examination and case studies. Successful candidates will receive a certificate from **Wareham & Associates**.
