OUR MISSION

To create internationally competitive risk management and sustainability solutions.

CONDUCT ENVIRONMENTAL RISK ASSESSMENT (ERA) ISO 14001 SERIES (7.1-67) DURATION: 2 DAYS

Who should be on this training?

This course is targeted at key environmental management staff including middle management and senior supervisors involved in SHEQ, production, maintenance and logistics who will be conducting the Environmental Risk Assessment.

What will you learn about?

This course will equip your team with the practical skills and understanding necessary to roll out the process into the factory as a whole and result in the production of actual ERA incorporating the specific deliverables listed below:

- Types of Environmental Aspects and Impacts:
 - Resource Depletion
 - Chemical Hazards
 - Physical Hazards
- ERA Methodology
- Legal Requirements
- Steps to implementing ERA
- Types of ERA – Activity, Products and Services
- Aspects that it can influence vs direct control
- Probability vs Intensity of Impact
- Duration and Magnitude of Impact
- Control (Mitigation) Measures
- Managing Significant Environmental Aspects
- Triggers for an ERA Review

What is the course all about?

This course will equip you with the knowledge and skills to: Understand the environmental aspects and impacts, understand an environmental risk assessment, deal with significant environmental aspects, understand control (mitigation measures) and then to use this data to develop the site Environmental Risk Assessments.

Prior Experience & Learning

Minimum 2 years experience at a senior supervisory/management level.
Computer literate (Excel).
Introduction to ISO 14001 Environmental Management (optional).

Assessment & Certification

Candidates will be awarded a certificate from Wareham & Associates indicating successful completion of the course.
